

DURABLE | AESTHETIC | VIBRANT FINISHES COLORS & OPTIONS

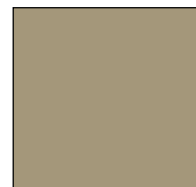

GalvaNex™ Finish

GalvaNex is our exclusive finish provided as standard on steel curtains and hoods. This cost-effective finish includes an ASTM A653 galvanized base coating treated with dual process rinsing agents in preparation for a chemical bonding baked-on base coat and baked-on polyester enamel finish coat.

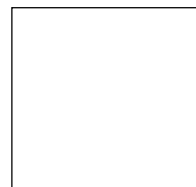

- Available in Gray, Tan, White or Brown
- Superior resistance to corrosion and abrasion
- Suitable as a finish coat
- Other door components (Guides, Bottom Bars and Brackets) provided with matching powder coat finish

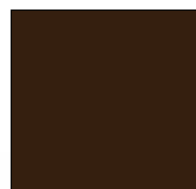

Gray GalvaNex

Tan GalvaNex

White GalvaNex

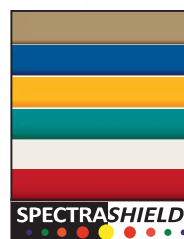

Brown GalvaNex

*Finish and gauge vary by product. Consult a Cornell representative for availability.

SpectraShield® Powder Coat Finish

SpectraShield is an environmentally friendly, factory applied polyester powder coating option that adds aesthetic value. Layered on top of the standard GalvaNex finish, the SpectraShield finish includes a zirconium pre-treatment followed by a baked-on polyester powder coating.

- Available in a palette of more than 180 standard RAL colors
- Custom colors are available to meet the designer's vision
- Can be applied to steel or aluminum components

CycleShield™ Powder Coat Finish

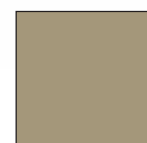

The CycleShield finish is provided as standard for our High Performance Doors. The specialized powder coating system features a low coefficient of friction wear-resistance to include a base coat consistent with ASTM A653 and a zirconium pre-treatment followed by a rust-inhibiting, baked-on polyester powder coat.

- Friction and wear-resistant composition for high-cycle applications
- Rust inhibiting and resistant to acids, alkalis and oils at normal temperatures
- Recommended for exterior, corrosive and/or abrasive environments
- Other custom colors available by request

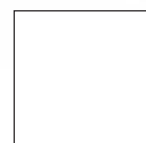

Due to inherent differences in production processes, color representations should be used as a guideline only. When color is critical, contact Cornell for a sample

ATMOSHIELD™

AtmoShield™ Color Options

AtmoShield™ textured powder coat combats the environment's harsh wear and tear. This finish provides a textured coating that is more resilient to scratches and blemishes. AtmoShield's rugged durability withstands fading, cracking, blistering, flaking and peeling. It is ideal for openings with high UV exposure or extreme weather conditions.
